

Please begin the lesson by completing the multiplication check challenge on Mathsframe.

Today, we are continuing with our fractions recap week.

Please watch the video link on the website and complete the worksheet. There are answers attached if you would like to check them your work. 😊

Challenges:

Jack: Find 3 fractions that are equivalent to $\frac{1}{2}$

Queen: Find 5 fractions that are equivalent to $\frac{3}{9}$

Ace: When $\frac{12}{132}$ is simplified, it is equivalent to $\frac{1}{12}$

True or false? Prove it.
