

## A Cloudy Lesson

Choose a section of the film and create a short narrative that includes dialogue between the two characters.

Follow the rules from your SPaG work yesterday.

Here is an example:

The man carefully opened the case and the young boy gasped.

“This,” said the man as he screwed the pole into the floor of the boat, “is something very special. Watch.”

He took a deep breath and blew.

“My turn!” the young boy shouted. He took a deep breath and blew. His heart sank as only a tiny whisp of a cloud appeared.

“No, no, no. You need to do it like this.”

The man inhaled a deep breathe, showing the boy how to stand straight and fill his lungs.
