

terrified	in love
excited	confused
sorrowful	angry
overjoyed	bored

Think...

*If a character was feeling one of these emotions, what would be happening inside their bodies/ to their physicality when they feel this emotion
(E.g., dry mouth, heart pounding, butterflies in stomach, tears ducts burning, sweaty palms, adrenaline pumping through veins)*

Task 1

Angry

What happens to your face/ body/ inside when you feel like this?

- 1) _____

- 2) _____

- 3) _____

Excited

What happens to your face/ body/ inside when you feel like this?

- 1) _____

- 2) _____

- 3) _____

Nervous

What happens to your face/ body/ inside when you feel like this?

- 1) _____

- 2) _____

- 3) _____

Task 2

Focus your attention on the boy in the scene.

How can you show how he is feeling without saying so?

Make a list of things that might be happening inside his body or to his physicality.

There is a mind map on Seesaw if you would prefer to work straight on to the file online
