

## The Grand Tour

### **Overview**

As you now know, August has not been to school before due to his many surgeries to correct the facial abnormalities he has. His parents have decided he is going to begin school in the new academic year and he has gone with his mother for a tour of the school.

Unbeknownst to August, the principle, Mr Tushman, has invited three children in to school to show August around. He is not happy about this but agrees to be shown around the school by the group of children whilst the adults wait for them in the office.

Read the chapter before moving on the task on the next page.

For your first task, you will now begin to prepare to re-write the events in 'The Grand Tour' through the eyes of one of the other children who were there: Charlotte, Julian or Jack Will.

Decide which character you will become.

Inside the body template, write down words that describe the person's character and emotions.

Outside the template, note down quotes and actions (use the text to help) that support your views.
