LO: To answer questions based on the biography of J.K Rowling.

A biography is a piece of writing that tells you all about someone else's life. Biographies are not written by the person it's about; they are written by someone else. For example, we could research David Walliams and write a biography about him.

Today, I would like you to read the biography attached about J.K Rowling. Whilst you read it, I want you to think about the key information the writer has included. Normally, biographies should be very interesting and tell the reader lots of inside information about the person. It should be quite personal and be full of information you didn't already know.

Once you have read it, I would like you to answer the questions about J.K Rowling so I can see that you have understood the key content. You don't need to print anything out today unless you want to.

Remember, you can upload pictures of your work to Seesaw to show us all what you've found!
